ADARSH INSTITUTE OF TECHNOLOGY AND
RESEARCH CENTRE ,VITA

MSBTE- 0991

FIFTH SEMESTER
(Year: 2023-24)

Micro Project

Software Testing (22518)

Title of the Project: “Vaccination Management System”

Branch: “Computer Technology”CM5I)

Members of the Group:

Sr. No.	Name of Student	Roll No.
01	Mulla Asiya Umarfaruk	3133
02	Deepak Nikam Laxman	3134
03	Arman Ikbal Jamadar	3135
04	Satyajeet Laxman Mahind	3136

**Loknete Hon. HanmantraoPatil Charitable
Trust's Adarsh Institute of Technology &
Research Centre Vita,**

CERTIFICATE

*This is to certify that the micro project report entitled
“Vaccination Management System”*

Submitted by

Sr. No.	Name of Student	Roll No.
01	Mulla Asiya Umarfaruk	3133
02	Deepak Nikam Laxman	3134
03	Arman Ikbal Jamadar	3135
04	Satyajeet Laxman Mahind	3136

*For Fifth Semester of Diploma in Computer Technology of course Software Testing
(22518) for academic year 2023-24 as per MSBTE, Mumbai curriculum of 'I' scheme.*

**DIPLOMA OF ENGINEERING
(Computer Technology)**

**SUBMITTED TO
MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION MUMBAI
ACADEMIC YEAR 2023-24**

**Project Guide
Mrs.P.P.Yadav**

**H.O.D.
Prof.A.A.Vankudre**

**Principal
Dr.P.S.Patil**

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION, MUMBAI

MICRO PROJECT

Progress Report / Weekly Report

Title of the Project: “Vaccination Management System”

Course: AJP(22517)

Program: Computer Technology (CM5I)

Week No	Date	Duration in Hrs.	Work / Activity Performed	Sign of the Faculty
1		2hour	Knowing the basic	
2		1hour	Decide Aim	
3		2hour	Collect the Data	
4		2hour	Prepare project proposal	
5		1hour	Search Literature review	
6		1hour	Analysis of Data	
7		1hour	Discussion over preparing	
8		2hour	Correction in Booklets	
9		2hour	Report writing	
10		1hour	Checking report	
11		1hour	Correction report write	
12		1hour	Rechecking report	
13		1hour	Finalizing report writing	
14		1hour	Final submission	
15		1hour	Oral presentation of micro project	

Teacher Evaluation Sheet for Micro Project

Course Title and Code: - “Advance Java Programming”

(22518) Title of the Project: “Vaccination Management System”

Group No: -9

COs addressed by the Micro Project:

CO a:	-
CO b:	Handle event of AWT and Swing components.
CO c:	Develop Java program using networking concepts.
CO d:	Develop program to handle even in java programming.
CO e:	-
CO f:	-

Marks:-

Roll No.	Name Of Student	Marks for Group Work (06)	Marks obtained by the individual based on viva (04)	Total Marks (10)
3133	Mulla Asiya Umarfaruk			
3134	Deepak Nikam Laxman			
3135	Arman Ikbal Jamadar			
3136	Satyajeet Laxman Mahind			

Name and designation of Faculty Member: Mrs.P.P.Yadav

Lecturer (Computer Technology Department)

Signature: _____

ACKNOWLEDGEMENT

I express my sincere gratitude to **Mss.P.P.Yadav.**, Department of **Computer Technology**, for **his**/her stimulating guidance, continuous encouragement and supervision throughout the course of present work.

I would like to place on record my deep sense of gratitude to **Prof.A.A.Vankudre** HOD- Department of **Computer Technology**, for his generous guidance, help and useful suggestions.

I am extremely thankful to Principal **Dr.P.S.Patil** for this motivation and providing me infrastructural facilities to work in, without which this work would not have been possible.

I would like to express my gratitude to all my colleagues for their support, co-operation and fruitful discussions on diverse seminar topics and technical help.

Title of Micro-Project: “Vaccination Management System”

1.0 Brief Introduction

Vaccines have changed the course of the medical system. The widespread availability of vaccines to mitigate illness or diseases has drastically changed over the last 20 years. These vaccines are used by Family doctors, Pediatricians, Internal Medicine, OBGYN, and many other medical experts in their medical practice in today's times. Moreover, the retail clinic and pharmacies administer vaccines in many states. There are some components to managing vaccines, including inventory management, supply chain management system, cold storage management system, and patient management system. Many Pediatric and other medical experts are still using either a manual process or paper process for inventory management & recording vaccines administration. Such manual processes take hours of time every month, and most have problems with consistency and accuracy. Earlier, some of the solutions on the market either delivered an intricate, time-intensive vaccine management process, and the solution rendered was costly to the office.

Medical facilities spend a considerable portion of their budget on buying vaccines for their patients. The discovery of new diseases has raised the cost of immunization every year. The hospitals can mitigate the vaccine wastage by proper maintenance and check of the patient's medical history. A vaccine management system is a one-stop solution for managing the immunization process in your medical center.

2.0 Aim of the Micro-Project

Some of the Benefits of the micro-project are as follows:

- The major purpose of this AJP Project to Give Information about acquiring knowledge about Advance java.
- This project also give knowledge about the Application and use of Advance Java in developing a billing system.
- State Importance of Advance Java & it's features in platform independency.

Intended Course Outcomes

- ❖ Handle event of AWT and Swing components.
- ❖ Develop Java program using networking concepts.
- ❖ Develop program to handle even in java programming.

4.0 Literature

Review]

Advance Java provides us the facility to create our own exceptions which are basically derived classes of Exception. Creating our own Exception is known as a custom exception or user- defined exception. literature review aims to explore the existing literature on bank management systems developed using Java.

5.0 Proposed Methodology

- 1) **Knowing the basics of the topic.**
- 2) **Decide aim of the project and collect the data.**
- 3) **Prepare project proposal.**
- 4) **Search Literature reviews.**
- 5) **Analysis of data.**
- 6) **Discussion over preparing and correction in booklet and report.**
- 7) **Converting the content of project in report writing.**
- 8) **Checking and correction in report writing.**
- 9) **Rechecking and finalizing report writing.**
- 10) **Final submission and oral presentation of micro project.**

6.0 Resources Required

Sr. No.	Name of Resource/ Material	Specifications	Quantity	Remark
1	Computer System	i-5	1	
2	Microsoft Word	2010	1	
3	Internet	Any	1	

7.0 Action Plan

Sr. No.	Details of activity	Planned start date	Planned Finish date	Name of Responsible Team Members
1	Project Proposal			All Members
2	Data Collection & Analysis			All Members
3	Preparation of Prototype/ Model			All Members
4	Preparation of Report			All Members
5	Presentation & Submission			All Members

PART B - Micro- Project Proposal

Title of Micro-Project: “Vaccination Management System”

1.0 Rationale:

Vaccination Management system is a system for managing the vaccination procedure in an efficient way. It provides an easy way to people for registering, updating, viewing and deleting their slots. The main objective of this system is to create a user friendly system.

2.0 Course Outcomes Addressed:

- Develop programs using Object Oriented Methodology in java.
- Use AWT Component.
- Use SWING Component.
- Apply Event Handling Concepts.

3.0 Literature

Review

Review:

Advance Java provides us the facility to create our own exceptions which are basically derived classes of Exception. Creating our own Exception is known as a custom exception or user-defined exception.

literature review aims to explore the existing literature on bank management systems developed using Java.

4.0 Actual Methodology Followed:

Member 1): Name: All Members.

Work: Finalize the group & project

Member 2): Name: Deepak Nikam Laxman

Work: Search information regarding project subject.

Member 3): Name: Mulla Asiya Umarfaruk

Work: Collect information and discuss with group members about proposal. Prepare proposal and submit to the guide.

Member 4): Name: Arman Ikbal Jamadar

Work: Analyze and finalize the information of the project report

Member 5): Name: Deepak Nikam Laxman
Work: Write project report

Member 6): Satyajeet Laxman Mahind

Work: Prepare rough sketch and final chart

5.0 Actual Resources Used

Sr. No.	Name of Resource/ Material	Specifications	Quantity	Remark
1	Computer System	i-5	1	
2	Microsoft Word	2010	1	
3	Internet	Any	1

```

Project Output :-

1.

2.

A screenshot of a web application window titled "Login". The window has a light gray background and a standard window frame with minimize, maximize, and close buttons in the top right corner. The title "Login" is centered at the top in a bold, black font. Below the title, there are two input fields. The first is labeled "Enter UserName:" and contains the text "abc". The second is labeled "Enter Password:" and contains three asterisks "...". Below these fields is a blue button with the text "LOGIN" in white, centered on the button.

A screenshot of a web application window titled "Vaccination Management System!!". The window has a light gray background and a standard window frame with minimize, maximize, and close buttons in the top right corner. The title "Vaccination Management System!!" is centered at the top in a bold, black font. Below the title, there are four blue buttons arranged vertically, each with white text. The buttons are labeled "REGISTER SLOT", "UPDATE SLOT", "VIEW SLOT", and "DELETE SLOT" from top to bottom.

4.

Back

5.

The screenshot shows a web application window with a light blue background. At the top, the title "Update slot!!" is displayed in red. Below the title, there is a form with the following fields and controls:

- "Enter Aadhar No." followed by a text input field.
- A "Show previous Data" button.
- "Full Name" followed by a text input field.
- "Mobile No." followed by a text input field.
- "Gender" with two radio buttons: "Male" and "Female".
- "DOB" with three dropdown menus for day, month, and year (currently showing 1, Jan, 995).
- "Address" followed by a large text area.
- "Vaccine" with four radio buttons: "Covaxin", "Covishield", "Polio", and "Rubela".
- "Vaccination date" with three dropdown menus for day, month, and year (currently showing 1, Jan, 2021).
- "Vaccination slot" with a dropdown menu (currently showing "Morning slot: 9am to 11am").
- At the bottom, there are two buttons: "Update Data" and "Back".

6.

The screenshot shows a web application window with a light blue background. At the top, the title "Show Vaccination Slot!!" is displayed in black. Below the title, there is a form with the following fields and controls:

- "Enter Aadhar No." followed by a text input field.
- A "Show Data" button.
- "Full Name" followed by a text input field.
- "Mobile No." followed by a text input field.
- "Address" followed by a large text area.
- "Vaccination slot" followed by a text input field.
- At the bottom, there is a "Back" button.

7.

The screenshot shows a web application window with a light blue background. At the top, the text "Delete slot!!" is displayed in red. Below this, there is a label "Enter Aadhar No" followed by a text input field. At the bottom, there are two buttons: "Delete slot" and "Back".

Delete slot!!

Enter Aadhar No

7.0 Skill Developed / learning out of this Micro-Project:

This Project is created for improving the Java programming knowledge of applications.

- The concept of project understood.
- Implementation of the self-development process.
- The structure and requirement of proposal and report understood.
- How to search information and use of different online tools come to know.

8.0 Conclusion :

Thus, we have successfully develop Vaccination Management System using Advance Component in Java And also use Event handling Concept.

Teacher Evaluation Sheet

Name of Student: _____ Enrollment No.: _____

Name of Program : _____ Semester: _____

Course Title: _____ Code: _____

Title of the Micro-Project: _____

Course Outcomes Achieved:

Evaluation as per suggested Rubric for Assessment of Micro-Project

(Please tick in appropriate cell for each characteristic)

Sr. No.	Characteristic to be assessed	Poor (Marks 1 -3)	Average (Marks 4 - 5)	Good (Marks 6 -8)	Excellent (Marks 9 - 10)
1	Relevance to the course				
2	Literature survey / Information collected				
3	Project Proposal				
4	Completion of target as per project proposal				
5	Analysis of data and representation				
6	Quality of prototype / Model				
7	Report Preparation				
8	Presentation				
9	Defense				

Micro-Project Evaluation Sheet

Seat No.	Process assessment		Product assessment		Total Marks 10
	Part A Project Proposal (2 marks)	Project Methodology (2 marks)	Part B Project Report/Working Model (2 marks)	Individual Presentation /Viva (4 marks)	

Note: Every course teacher is expected to assign marks for group evaluation in first 3 columns and individual evaluation in 4th column for each group of students as per suggested rubrics.

Comments / suggestion about team work / leadership / inter-personal communication (if any):

Any other Comment:
