Defect Report for Library Management System

Date: October 29, 2023

Reported By: Tanishka Suhas Pandharpatte
Summary: Unable to add a new book to the library inventory.

Description: When attempting to add a new book to the library inventory through the "Add Book" functionality, the system displays an error message and does not save the book information. This issue is consistent and reproducible across all browsers and devices.

Steps to Reproduce:

1. Log in to the library management system.

2. Navigate to the "Add Book" section.

3. Fill out the required book details (e.g., title, author, ISBN).

4. Click the "Save" button.

Expected Result: The book information should be saved successfully, and the system should display a confirmation message indicating that the book has been added to the inventory.

Actual Result: An error message is displayed, stating: "Error: Unable to save book information. Please try again."

Severity: Major Priority: High
Environment:
· Operating System: Windows 10
· Browser: Google Chrome Version 94.0.4606.61 (64-bit)
